

Seasonal Mug with Pre-Printed Inside

Pink area (Print area) = This should be your prepared file size with design.

Purple area (Safe file area) = Keep important graphics within the safe print area to avoid missing design elements on final product.

Trim area is indicated by pink, it might be cut off while trimming. Avoid placing important design details there.

NOTE!

for better result resolution requirement: 120 ppi

Prepare files in PNG format

Please find photoshop working file attached with all the necessary layers and sizes to use for your designs.
